

## FEATURES

### LOWERED COLLAR:

Our curved closure flap reduces rear collar height improving comfort and reducing chaffing.

### QUICK EXIT LEGS:

2mm A-Flex material located in a quick exit panel at the back of the leg improves transition times.

### A-GRIP PANELS:

A textured forearm print onto our high stretch jersey allows the swimmer extra feel for the water and additional grip in the propulsion phase of the stroke.

### FEMME FIT SPECIFIC:

Available in femme fit sizes WXS through to WLA

### AVAILABLE IN SLEEVELESS

The Fusion suit is designed to offer the best blend of flexibility, durability, and comfort offering a high degree of perceived value for any price conscious customer.

The Fusion suit uses the Axis pattern from 2010-11 as the basis for this suit. The predominate placement of buoyancy is in the lower body, helping less technical swimmers position themselves better for efficiency.
